InvisiCurl Hair Roller Instructions

Divide hair into left and right sections.

With snap fastener towards back of head, pull one half of hair through InvisiCurl hair roller. Slide roller down to bottom of hair strands.

Roll upwards.

Roll up high on head and pin above ear. Cross two bobby pins in an X shape for a strong hold.

Roll other side in same way and pin above ear.

Snap two sides together at back with snap fastener.

Spread hair to hide roller.

Decorate as desired.

The InvisiCurl hair roller can be used on dry or wet hair. To achieve curls, use on wet or partially dry hair. Wetter hair will create tighter curls. Wear the up-do while hair dries, and then remove the rollers and style waves or curls as desired. Kit includes right and left InvisiCurl rollers, 4 bobby pins, and these instructions.
